

Radiology Scheduling

See the Difference with PerfectServe's
Lightning Bolt Scheduling Solution

Complete, Accurate, and Equitable Schedules

Provider Scheduling powered by PerfectServe's Lightning Bolt Scheduling Solution considers thousands of variables to create the best possible schedules—every time. While other scheduling tools leave gaps in coverage for administrators to fill, ours consistently generates complete, optimized, and equitable schedules.

With the most granular rule prioritization on the market, we know which rules to break to ensure you are getting the best available schedule instead of the first available schedule.

Optimized Scheduling for Radiology

Radiology shift scheduling is uniquely complex, with multiple subspecialties, image exam types, and facilities to consider.

Lightning Bolt's robust rules-based scheduling engine automatically aligns available subspecialty radiologists with the demand for varying image exam types across multiple facilities for a balanced and productive workforce.

Common Radiology Scheduling Rules Include:

- Equalize Angio Call among eligible providers covering Angio Call.
- Equalize weekend calls for all full-time providers.
- Part-Time providers take half the number of calls as a Full-Time Provider.
- Do not schedule back-to-back days of Angio Call.
- Each eligible provider works at most 4 Breast Clinic shifts per month.
- Schedule at least 1 Neuro provider at Mercy Hospital on the 3rd Tuesday of the month.
- For providers who prefer to split weekends, when working Friday they also work Sunday (not Saturday).
- For providers who prefer whole weekends, when working Friday they also work Saturday and Sunday.
- Schedule the Chief into Regional Chiefs Meeting every Monday.
- Only two Neuroradiologists can have vacation on the same day (rules monitoring time-off and vacations requested).
- Dr. Jones picks their two weeks first, then Dr. Lee, followed by Dr. Smith (Round Robin request support).
