

# Integrations

Leveraging Data to Connect PerfectServe with Third Parties

perfect**serve** SUMMIT

# Advanced Integrations, Pt. 1

## Nurse Call Alarms

PerfectServe can:

- Deliver nurse call events (sent to us via SIP or WCTP) to the appropriate role with the desired ring tone and icon
- Clinician can also dial back into the room to speak with the patient

## Telemetry Alarms

PerfectServe can:

- Deliver telemetry alarms to clinicians with escalations controlled by the source system
- Allow clinicians to acknowledge or escalate the alarm from the message

## Sepsis Alerts

PerfectServe can:

- Deliver sepsis alerts to desired clinician roles or teams
- Configure, based on consultation, how often to alert within a specified time period

# Advanced Integrations, Pt. 2

## Patient Experience

PerfectServe can:

- Consume events from Patient Experience solutions
- Alert appropriate staff based on requests for cleaning, supplies, or pastoral services

## RFID

PerfectServe can:

- Consume events from RFID's system to alert a team to infant abductions without disruptive lights and alarms
- Inform the team when the incident is closed

## Orders + Results

PerfectServe can alert providers of:

- Test orders
- Positive or negative results for those tests

# Thank You!
