

PerfectServe is **Highest** in Execution, **Furthest** in Vision

Gartner®

2026 Gartner® Magic Quadrant™ for Clinical Communication and Collaboration

PerfectServe is now a 3-time Leader in the Gartner Magic Quadrant for Clinical Communication and Collaboration.

For 2026, Gartner also named us **Highest in Ability to Execute** and **Furthest in Completeness of Vision**.

This dual recognition reflects our commitment to delivering the best real-time communication and care coordination technology on the market.

Contributing Factors:

- **Dynamic Intelligent Routing®** is the industry's most advanced routing engine, directing all communications—from messages to calls to alerts & alarms—to the right person at the right time.
- **Unmatched interoperability** with EHRs, nurse call, scheduling, and more than 250 other critical third-party platforms.
- **Enterprise-grade scalability** supports large, complex health systems.
- **Advanced workflow automation** reduces communication inefficiencies, improves response times, and mitigates unnecessary care team toil.
- **Dedicated innovation team** incorporating AI and other emerging technologies to enhance analytics and automation.
- **Implementation and support teams** staffed by tenured leaders with extensive clinical expertise to help customers reduce friction and get the most out of their investments.
